Axiom Medical Reference Sites

For Over Twenty years RBH have been providing affordable Enterprise Level Access control solutions. Axiom has a number of advanced features some of which are highlighted.

RBH have a long history of dealing with the health sector and have adapted the software to suit medical requirements.

- **Auto-Void Cards** The ability to void a card that hasn't been used in a set period of time. The card remains in the software for reportability but no longer functions at the door until re-activated.

- **2 Person Rule** 2 valid cards required to open specific doors.

- **Interlock** 120 door intelligent interlock functionality.

- **Escort Required** A visitor for example cannot open any doors within the building without an accompanying escort card.

- **Video Integration** Pop-up live video automatically, for example – someone's card is not working. You can verify their identity visually and open the door.

- **Photo ID** Create graphic IDs for your employees as well as frequent visitors and contractors. Just add a camera and a printer.
